

# Expand your life. CHANGE THE WORLD.

Circle K International is a global network of empowered college students changing the world through impactful, equitable and sustainable service. If you were involved in Key Club, CKI is the next step in your service journey.

CKI is one of few collegiate student organizations with a wide range of leadership opportunities. Members may serve in their campuses and communities to lift others through volunteerism as well as serve in district and international offices. All CKI members have the opportunity to promote innovative social justice and service initiatives.

Above all else, CKI provides opportunities to have fun, make lifelong friends, grow as a person and change the world through service. We hope to see you at our next club meeting!

*CKI prioritizes diversity, equity and inclusion in all operations to foster a welcoming environment in which anyone can grow, serve and lead.*
